

IRON COUNTY WILL HOLD DRY AND WET "PEACE PARLEY"

City Rejoices Over Victory of Rum Rebellion

HONOR CITY OFFICIALS

(By The Associated Press)
IRON RIVER, Mich., Feb. 26.—Iron county, scene of the bloodless rum rebellion, marked its victory yesterday over federal prohibition agents, and awaits assembling tomorrow on the wet and dry "peace conference."

G. F. Cummerow, chief special agent of the department of justice bureau of investigation, and S. E. Converse assistant attorney general of Michigan, were expected to arrive late tonight to open the meet tomorrow.

M. S. McDonough, prosecuting attorney of Iron county, who yesterday vanquished federal and state forces under Major A. V. Dalrymple, prohibition commissioner for the central states announced tonight he would ask that the peace statement be an open covenant.

He was prepared to make this demand and that the Iron county, declared by Major Dalrymple to be in open revolt might be shown in its true light.

Mr. McDonough tonight can have anything he asks for of Iron county and the upper peninsula. His friends are already considering him as a Republican presidential candidate.

Sensibla, chief of the Iron River police is still carrying a warrant for Major Dalrymple's arrest on charges of malicious libel.

Sensibla declared he hopes to serve it some day.

Planned to Capture Dalrymple
It was learned today that 100 miners, woodsmen and hunters gathered yesterday near Stambaugh, a mine from there, prepared to capture the federal prohibition riders' train had Major Dalrymple arrested District Attorney A. S. McDonough in the prohibition enforcement fracas.

They said they intended to take McDonough away from Dalrymple and leave the federal agents stranded in their coaches.

As a result of his sudden popularity, McDonough may be numbered among Republican candidates for the presidency. His friends have launched the boom and declare he will have the support of the Upper Peninsula. Next to McDonough, "Pat" O'Brien, representative of Iron county in the state legislature and editor of the weekly paper, is the most sought after man in Iron River.

Five papers will not be off the press tomorrow and several hundred anxious citizens are impatiently awaiting the editor's news on the publicity which has accrued to the village.

Among messages received by McDonough today were many from prominent men in all parts of the country.

Agents Back in Chicago.
Chicago, Feb. 26.—Major A. V. Dalrymple, commander of the expedition against the Michigan "rum rebellion," returned today with his men to be faced with federal orders forbidding booze searches or arrests without warrants.

The ruling, induced by the Iron River controversy is expected to throw out of court many cases started here by "dry" agents who first procured the evidence against prisoners and later had warrants sworn out.

All argument concerning right of prohibition agents to search homes or business houses, or to make arrests without federal writs, is now settled according to an opinion distributed to federal officers by District Attorney Frank C. Dalley as a detainer.

It was said that scores of "red" rioters taken in raids on saloons and restaurants, have been released because there were no warrants for them before their arrest.

URGENT CREATION OF FRATERNAL BODY
CHICAGO, Feb. 26.—Creation of a fraternal society department and appointment of a fraternal commissioner in each state, is advocated in a resolution adopted today by the American fraternal congress just before its journalment of its first annual meeting.

The purpose is to remove from the state commissioner of insurance authority over fraternal insurance societies, whereby the latter may profit and be benefited by direct and personal supervision.

Another resolution supports the mobile bill with the New York conference amendment adopted in more than thirty states and especially recommends its adoption in Illinois, Iowa and six other states.

APPOINTMENT OF NEW AMBASSADOR WILL BE SOON
LONDON, Feb. 26.—Replying to a question in the house of lords today as to what caused the delay in appointing an ambassador to Washington, Premier Lloyd George said there had been no unnecessary delay. He hoped to announce the appointment shortly.

HANDWRITING EXPERT ENLIVEN NEWBERRY CONSPIRACY TRIAL

Claims 106 Names on Nominating Petition in Chirography of Fletcher

(By The Associated Press)
GRAND RAPIDS, Mich., Feb. 26.—Testimony by a handwriting expert as to whether 106 signatures on nominating petitions were in the chirography of Richard R. Fletcher, state labor commissioner, enlivened the Newberry conspiracy trial today. On a long list of defense halted the expert's explanation of his conclusions, but not until he had expressed a belief that the same hand wrote Fletcher's name on a hotel register in Grand Rapids, the state payroll in Lansing and on petitions asking the nomination of James W. Helms in opposition to Henry Ford in the 1913 Democratic primary for United States senator.

After the handwriting witness was withdrawn pending establishment by the government of broader foundations for his work the afternoon was given over to miscellaneous witnesses. These concerned payments for campaign work in the Newberry interest by Fred Yelland and Henry Dotsch of Escanaba; Ernest C. Smith of Kalkaska; August Field, a politician; and Frank Guinan of Manistee.

There was also a story by George H. Brown of a Chicago advertising man, who said in 1918 he persuaded Paul King to have the Newberry campaign committee pay for two advertisements in Michigan farm journals, combining the candidacy of Newberry with an advocacy of the boys' working reserve.

Brown said the advertisements cost \$700 or \$800 and were written and paid for by the committee. He said at the conclusion of his conference with King, the Newberry manager tried to hire him for the campaign publicity staff.

The Helms petitions and Fletcher's alleged signing of them were introduced by the testimony of three Detroit witnesses.

All said they did not sign either their names and addresses appeared on the documents. One was James Fletcher, colored, and the government placed reliance upon the way his last name was written on the petition as compared with its appearance on the hotel register.

The government was balked in proving the signature of Fletcher on the state payroll. George L. Houser of the auditor general's office came from Lansing to identify them but on the stand would say nothing more definite than that the signatures on vouchers from the commissioner of labor's office were what he always took as Fletcher's.

The introduction of the Fletcher testimony was the signal for a volley of technical objections and arguments. This circumstance coupled with time consumed by grand jury testimony in the morning session led Frank C. Dalley to announce tonight that they had given up hope of completing the government case this week.

ADOPTED SON OF MARSHALL DIES
Washington, Feb. 26.—Morrison Marshall, the young adopted son of Vice-president and Mrs. Marshall died here early today after a short illness. He was suffering from acidosis.

The child was three years old and a member of the vice-president's family since June 1917. He never was legally adopted, it was stated today. He was taken into the vice-president's home when he was 10 months old from a diet kitchen here where his mother, who was employed as a chambermaid, left him in care as her duties occupied her both day and night.

Vice President and Mrs. Marshall have no children of their own and the little boy was first taken to their apartments in a hotel for a visit by Mrs. Marshall who was touched by the child's plight. The vice-president and Mrs. Marshall became so attached to him that with the consent of the mother they made him a member of the family.

DECLARES AGAINST PUBLIC HANGINGS
Chicago, Feb. 26.—Public hangings instituted by Sheriff Peters of Cook county, as a deterrent to future murders, were denounced in the final report of the February grand jury, which was made today.

The report stated that the sheriff should be encouraged in his attitude of allowing prisoners to witness hangings.

This resolution was made in a supplemental report of a majority of the grand jurors who witnessed the execution last week of Jack O'Brien, murderer of Policeman Richard Burke.

MOTHER AND FOUR CHILDREN BURNED
Montreal, Feb. 26.—Mrs. M. Gregory and her four children were burned to death early today in a fire which destroyed their home at Greenwood Park. East Mrs. Gregory and a two-day old baby were lying in bed on the second floor when the three other children, playing on the lower floor, accidentally set fire to the house.

NOTES EXCHANGED BETWEEN WILSON AND ALLIED PREMIERS ON ADRIATIC QUESTION

WASHINGTON, Feb. 26.—President Wilson replying to British and French premiers on the Adriatic question, adheres to his previous decision that unless the terms of settlement are returned to the provisions of the agreement of December 9, "he must take under serious consideration" withdrawal of the peace treaty and the French alliance from the senate.

The response of the premiers was dispatched from London today, but had not been received tonight.

Except this note the exchanges, including the December 9, agreement and the agreement communicated to Jugo-Slavia last month by the British and French ministers were made public today.

The new agreement between Great Britain, France and Italy, dated January 14, 1920, which President Wilson construed as having been made without participation of the United States after the agreement of December 9, provided in substance:

France as an independent state free in its own diplomacy. Susak to go to the Serb-Croat-Slovene state with railroads and terminals to go to the league. The free state of the previous proposals was to disappear and the boundary between Italy and the Serb-Croat-Slovene state was to be redrawn to provide for the previously discussed corridor.

"The Wilson line" near Senoschia, was to be redrawn "to provide for protection of Trieste." This, the agreement declared, will leave in the Serb-Croat-Slovene state purely Jugo-Slav districts.

Zara was to be an independent state under the league. Valona, was to be retained by Italy as provided in the treaty of London and Italy was to take a mandate over Albania, whose northern boundaries were to be readjusted and whose southern boundaries were to be rearranged to give Greece Koritza and Argirokastro.

The island groups of Lussini, Lissa and Pelagosa were to go to Italy and the remainder were to go to the Serb-Croat-Slovene state.

All Adriatic islands were to be demilitarized and there were to be special provisions to permit

Italians in Dalmatia to choose Italian nationality.

President Wilson's note of January 19, protesting these arrangements asked whether it was the "intention of the British and French governments to dispose of the various questions pending in Europe and to communicate the results to the government of the United States, adding that Clemenceau and Lloyd George must realize there were features in the proposed settlement not acceptable to this government.

Lloyd George and Clemenceau, replying on January 23, disclaimed any intention of making a definite settlement without views of the United States but had taken by the British and French ministers returned home. They replied they felt "practically every important point."

The British and French premiers argued that the disappearance of the free state of Fiume would re-unite 200,000 Jugo-Slavs with their fatherland and that the Albanian settlement would afford satisfaction to the requirements to all parties concerned.

They characterized it as a fair settlement of a difficult and dangerous question and that in the event of its not being accepted they will be driven to support the enforcement of the treaty of London, satisfactory to nobody.

Both premiers disclaimed any intention to show discourtesy to the United States or that they "wished to conceal their action."

As President Wilson was not at the conference, they said, they thought the best plan to proceed with the negotiations and communicate the results to the United States.

President Wilson's reply of February 10 said he could not "believe a solution containing provisions which already had received condemnation of the French and British governments."

He could not agree that the memorandum of January 14 left untouched practically every important point and declared his

opinion that the original proposal had been profoundly altered to the advantage of improper Italian objectives, to the serious injury to the Jugo-Slav people and to the peril of peace.

The fact that Italy rejected the proposal of December 9 and accepted that of January 14, he thought was proof Italy would receive "positive advantages."

President Wilson pointed out that while the British and French governments in the agreement of December 9, concurred in the view that a corridor for Fiume ran "counter to every consideration of geography, economics and territorial convenience," they agreed to it by memorandum of January 14 and that whereas Italy's demand for annexation of Istria had been rejected in the former agreement, the agreement of January 14 provided for "this unjust and inexpedient annexation of Istria."

President Wilson said that whereas the agreement of December 9, excluded Italian sovereignty over Fiume, he could not avoid the conclusion, that the new agreement "opens the way for Italian control of Fiume's foreign affairs." He said he felt the original agreement gave protection to the railway connecting Fiume with the interior, but that the agreement of January 14 established Italy "in dominating military positions close to the railway at critical points."

The new agreement his note said, "partitions the Albanian people among three alien powers" while the original agreement largely preserved its unity.

NEW YORK DEMOCRATS SELECT DELEGATES TO NATIONAL CONVENTION

Adopt Platform and Instruct Delegation to Vote as a Unit

(By The Associated Press)
ALBANY, N. Y., Feb. 26.—New York state Democrats at their unofficial convention today selected delegates and alternates at large to the Democratic Convention, adopted a party platform and instructed the delegation to vote as a unit.

The delegates at large are Gov. A. H. Smith and Miss Elizabeth Marbury of New York, Miss Harriet May Mills of Syracuse and Louis Desbeker of Buffalo. The alternates include two women.

A flurry came during the session when Mayor G. E. Lunn of Schenectady endeavored to substitute for a platform plank calling for repeal of the federal prohibition amendment, a plank recommending an amendment to the federal constitution providing that all federal amendments be submitted to the vote of the people.

After much wrangling, the amendment was defeated as a substitute plank. The platform declared that the Democratic party had enacted more constructive and progressive laws in half a dozen years than the Republican party in half a century, demanded immediate ratification of the prohibition amendment, and declared for repeal of the federal prohibition amendment.

The prohibition plank says: "We are unalterably opposed to prohibition by federal enactment. We believe it to be an unreasonable interference with rights of states. We feel the enactment was the imposition of the ideas of an active minority against the wishes of the majority."

Complete enfranchisement of women and the equal representation in party affairs and a strong campaign of education to curb radicalism are urged.

DISCUSS HIGH COST OF ROAD BUILDING
SPRINGFIELD, Ill., Feb. 26.—The high cost of constructing roads was the subject of a conference this afternoon held by Governor Frank O. Lowden with Frank I. Bennett, director of the department of public works and engineering, and Thomas G. Vennum, assistant director.

The governor was informed that recent bids show that the cost of road building has risen to \$50,000 a mile, which figure officials consider prohibitive.

No action was taken this afternoon regarding the 1920 program of road construction but Governor Lowden sent messages to the board of county highway advisers asking them to meet him at 10 a. m. Saturday. At this meeting it is expected some decision will be made as to the advisability of abandoning the 1920 program until prices recede.

AMENDMENT IS UNCONSTITUTIONAL
ST. LOUIS, Mo., Feb. 26.—The amendment to the federal constitution proposed by the United States today when he sustained a demurrer of the defense and dismissed the case of the L. Cohen Grocery company charged with making an unjust profit on sugar. The company was accused of charging a wholesale price of 19.8 cents a pound for sugar sold last November.

The court held that the amendment to the act violated the sixth amendment to the constitution which requires that all citizens shall be informed of charges against them.

JOHNSON CONDEMNS WILSON REGIME
DEVILS LAKE, N. D., Feb. 26.—Condemnation of President Wilson's administration, rigid enforcement of government economy, reduction of the high cost of living and change in the system of taxation was voiced by Senator Hiram Johnson, candidate for the Republican presidential nomination in North Dakota today.

He charged the administration with operating the greatest scandal of expense and extravagance in history. He also announced the league of nations and condemned "a big standing army."

The senator was applauded as he arraigned the Wilson administration and also when he declared, "If Theodore Roosevelt were alive today would be no other candidate."

ESTABLISH RIGHT TO COWAN MILLIONS
Chicago, Feb. 26.—Nine persons today had established their right as heirs to share in the \$3,000,000 estate of William P. Cowan former president of the Standard Oil Co. of Indiana who died intestate at his home at Wheaton, Illinois in 1918. The heirs will receive approximately \$200,000.

SENATE READOPTS G.O.P. RESERVATION ON MANDATORIES

Many Democrats Vote For With Republicans

WASHINGTON, Feb. 26.—The Republican reservation on mandatory attached to the peace treaty last November over opposition of 23 Democrats, was re-adopted 68 to 4 in the senate today after administration leaders had withdrawn opposition. It was the first time a treaty qualification had been adopted with acquiescence of the Democratic managers and the first time more than two-thirds of the senate had voted in approving a reservation.

The result was not generally regarded as indicating a break, however, since the reservation was one to which the Democrats had agreed to in the recent bipartisan conference.

Thirty Democrats and 38 Republicans voted for the reservation after Senator Hitchcock, Democratic leader declared that the effect would be only to rectify a principle established under the treaty and under federal laws. It provides that no mandate could be accepted by the United States without consent of congress.

The four who voted "no" were Senators Jones, New Mexico; Kendrick, Wyoming; Walsh, Montana, and Williams, Mississippi, all Democrats. Senator Walsh declared he had "not the slightest objection to the reservation except that it is unnecessary."

Senator Hitchcock did not vote. The vote came after the treaty, laid before the senate under a plan to keep it under consideration until acted on had been subjected to attack by its irreconcilable opponents. Senators France, Reubin, Maryland and Reed, Democrat, Missouri, had the assault. The latter criticized President Wilson's appointment yesterday of Bainbridge Colby to be secretary of state.

Mr. Colby was defended by Senator Ashurst, Democrat, Arizona. Although the article ten reservation was to precede that on mandatory, it was not over on motion by Senator Lodge to be considered after all others have been voted on. There are four and action has been taken on only two.

The reservation now before the senate relates to domestic questions and its adoption without change but over Democratic opposition.

A new reservation providing ratification would not be binding unless the president formally transmitted it to the other powers within thirty days after the senate acted, was presented for future consideration.

MUST UNITE TO COMBAT RADICALISM
Cleveland, O., Feb. 26.—Addressing the department of superintendent of the National Education association here tonight, J. P. Garber, superintendent of city schools, Philadelphia pleaded for united efforts to combat radicalism.

"We must take a determined stand against every form of sordid Democracy," he said. "Entirely too many are losing their respect for authority for law and order and for the evidence of the majority. Schools can do much but not all. Every one must be on guard."

Garber, in speaking of the high cost of living said the people were ignoring the need for increased production and show only interest in profit and wages.

Plans to combat Bolshevism through school buildings for community center meetings and thru Americanization work in the schools were discussed by the national community association and the rural education department.

Use of public school buildings for community center meetings to combat radicalism was advocated by H. E. Jackson, agent of the United States bureau of education before the national community.

Mr. Slick, a Peoria grain man, is on trial charged with having paid an income tax of a few hundred dollars when he should have paid \$29,000. Many a man would have been mighty glad to think that his business earnings were large enough to make such a tax possible.

The effect of women in politics is already being shown in Washington. The joint committee on the reclassification of salaries will report to congress in favor of men and women employees of the government receiving equal pay. There are plenty of good arguments on which to base such a report.

One improvement leads to another. Beloit, Wis., has grown so much industrially that the chamber of commerce has raised a sum

of \$40,000 to build 100 houses. The same thing has happened in a number of other cities, as the increase in the number of employed people has made the population too large for the housing conditions.

The legislative voters league has made a suggestion to the constitutional convention that the cumulative voting system as applied to the members of the legislature in this state shall be abolished. There will be a fight on this proposal, which will be carried into the election if the proposal is submitted. In the past minor representation has frequently been a definite detriment to the good work of Illinois legislatures.

Edward D. Shurtliff of Marengo, several times speaker of the Illinois house, has announced his intention of becoming a candidate for senatorial nomination in Illinois. Mr. Shurtliff has a wide acquaintance throughout the state and is quite familiar with Illinois needs and affairs. Friends of Congressman McKinley, whose candidacy for the senatorship has been known for some time, have the feeling that the votes Mr. Shurtliff gets will not materially injure the chances of their candidate.

Senator L. Y. Sherman addressed the constitutional convention in Springfield Wednesday. It has been referred to as a mastery address, including constructive, worth while suggestions. Mr. Sherman's course on some public questions in the senate has not pleased all Illinois Republicans. He has sometimes been overly

sharp-tongued. Nevertheless admirers and critics are of one mind that he is a deep student of political and economic affairs and his statements are made with a logic of reason and a picturesqueness of words that always command attention.

There will be general regret that the entire postponement of the state's good roads building program seems now altogether probable. But the figures indicate that no other course is reasonable for on the present basis the \$60,000,000 bond issue for hard roads is entirely inadequate. A special reason actuating the highway division in abandoning road building project is found in the very sharp advances in costs by comparing present prices with those submitted only a few months ago. Manifestly it would be unfair to expend the fund the \$60,000,000 bond issue made possible and secure only half the mileage that was originally contemplated.

Rippling Rhymes By Wait Mason

The Auto Shows.
 Each year I go to see the show where autos are displayed, those works of art from every mart, the finest wagons made. The limousine in brewster green, with cushions large and fat! "Some day," I sigh, "I hope to buy a gorgeous van like that." The new sedan of noble plan suggests a lifelong bliss. "Some day," I moan, "I hope to own just such a bus as this." And, bright and gay, the new coupe appeals to me; you bet; had I the wad, I'd scorch abroad in such a wagonette. I view them all, the big and small, the open and the closed; they are so fine I shed some brine, as happily you've supposed; the luscious peach beyond your reach is wormwood to the soul, and gorgeous boats cost many groats, and I've mislaid my roll. I walk the floor and look them o'er, and sigh to gaffers near. "The old tin boat then gets my goat must do another year."

STUDENTS PRESENT OPERETTA SYLVIA

Given Before Large Audience at David Prince Gymnasium—Cast was capable one and showed R'sult of Careful Training

The operetta "Sybil" was very successfully given last evening before a packed house in the David Prince "Gym."

The pastoral costumes and the woodland scenes made an effective setting for the cast which rendered the operetta in a very pleasing manner. The argument of Sylvia is that of a pastoral lass and a court lady who are tired of their lives and change places, but find at the end of the day that their own station in life is the one they are best fitted to live.

The operetta was given under the direction of Miss Lena Hopper and Coach Hufford assisted by Miss Leonard.

INTERESTED IN AMERICAN LEGION WORK

Edward Clifford of Chicago made a brief visit in Jacksonville yesterday after spending a few hours at the home of his parents in Virginia. Mr. Clifford had been to St. Louis to make an address before a men's club there on the work of the American Legion. He is a graduate of the St. Louis law school and while in the city a number of the members of his class held an enjoyable reunion.

During the war period Mr. Clifford was in Washington and with the rank of lieutenant colonel was in charge of one department of insurance and allotments. Since his return to private life he has been devoting much of his time to the work of the American Legion. He is commander of the post at Evanston and is actively associated with the work of the state organization.

Editor Journal:
 "A good name is rather to be chosen than great riches." In securing an appropriate name for our new lake we need one with a historical meaning and one that is at the same time locally appropriate. The waters from this lake will supply our daily needs. We want to bathe in it and be young again, so I suggest that it be called "Lake Ponce de Leon" or "Ponce de Leon Lake."

Journal Reader.

Dear Editor:
 As others are sending in their names for the lake, I thought I would suggest Eureka or Arcadia as the meaning of Eureka is "I have found it" and Arcadia is "I have found a place of joy." Either would be appropriate as such a great effort has been made to get an adequate water system. I certainly think they have found their Arcadia or have their Eureka.

A Friend.

Editor Journal:

Health is one of the priceless blessings a bounteous Nature has bestowed on us. Without it life is a torment of sorrow, pain and worry; inefficiency, failure and poverty are the result and life becomes a mockery.

"How can I get well?"—"How can I keep well?" The questions are universal. Rich and poor alike have often voiced them. Therefore, this series of talks, of which this is one, will be read with interest by every one, the well and the sick. It will tell of the science of Chiropractic, which has pointed the way to health to thousands, many of whom had sought in vain for relief through medicine and surgery.

Chiropractic (Ki-Ro-Prak-Tic) is drugless. By a method of scientifically correct adjustments by hand, the cause of disease is removed and Nature is enabled to restore diseased conditions to normal and health results.

CHIROPRACTIC THE BETTER WAY TO HEALTH

is the logical health method of the time. If you are ailing isn't health worth a few moments of your time spent to investigate this science? Information gladly given personally, or send your name in and descriptive literature will be sent. Watch for other announcements in this series.

CAILLAUX TRIAL PROGRESS IS SLOW

PARIS, Feb. 26.—Cross-examination of Joseph Caillaux took up the whole of the session of the senate, sitting as a high court of justice today. The hearing did not bring out any new features or facts concerning M. Caillaux' activities during the war. The witness related his good faith and been abused by Minotto. A letter from assistant Attorney General O'Brien of Washington explaining Minotto's status at the time of the armistice was deposited with M. Bourgeois.

The next session will be Tuesday.

ASSAULTS CONGRESS

Springfield, Mass., Feb. 26.—Congress was scored for an alleged attack on the merit through exemption of Volstead act agents and inspectors from civil service examinations in the report of the league council today in the annual conference of the National Civil Service Reform League. The report also cites the deniable inactivity of the Anti-Saloon League to the government's invasion of a high moral and civil principle.

MAY CONTINUE SALE OF BAKING POWDER

CHICAGO, Feb. 26.—The Royal Baking Powder company today obtained a temporary order restraining J. B. McLaughlin, superintendent of the bureau of foods and dairies of Illinois and Charles Atkins, director of the state department of agriculture from causing to be instituted or threatening to institute proceedings against one selling or distributing Dr. Price's cream baking powder.

Assistant Attorney General Moody, attorney for the department of agriculture said the order had been asked because Superintendent McLaughlin covered the baking powder was made of phosphate and not of cream of tartar.

SEEK AMNESTY FOR POLITICAL PRISONERS

WASHINGTON, Feb. 26.—Union labor today joined effort to obtain amnesty for all "political prisoners" being held in army disciplinary barracks. At a conference with war department officials, Hugh Frayne, representing the American Federation of Labor and Mrs. Lucy Robins of the central labor bodies' conference of Greater New York for amnesty for political prisoners urged that review of the cases against 2,650 men still imprisoned for war time offenses. Mr. Frayne said after that a promise was made that a distinction will be made at the review between penal offenses and forms of strike activity.

Social Events

Entertained Friends.
Friends of Mrs. Robert Hunter and Misses Elizabeth and Emma Hunter, were their guests at dinner Wednesday night, at their home on South East street. The guests included Mr. and Mrs. Lester Martin, Mr. and Mrs. Elbridge Sibert, Miss Bernice Dods-worth and Farrell Dods-worth.

Mrs. Lippincott Hostess
To Circle Number Two.
Mrs. J. P. Lippincott was hostess to Circle Number Two of the Ladies Aid society of Congregational church at her home on West College avenue Thursday afternoon. There was a large attendance of members. Each member brought a dollar which they had earned and told the manner in which it was earned. The recitals were for the most part very amusing and several members told the story in rhyme. The afternoon proved one of much pleasure. The hostess served dainty refreshments.

Celebrates 84th Anniversary.
J. W. Luttrell, one of our Civil War veterans, celebrated his 84th birthday anniversary last Sunday. He spent the day quietly and pleasantly at his home in Waverly with his children, grand children and great grand children.

At the noon hour a delicious dinner was served, two birthday cakes being in evidence among all the other good things enjoyed. It is needless to say that quite a bit of the preparations were made by the worthy gentleman himself as he justly prides himself on his ability in the culinary line.

Mr. Luttrell enjoys excellent health for one of his years and all the guests bade him a happy good day with hopes of a similar celebration the coming year, as it is now an annual event.

Those present were Jesse T. Bateman and family; Edward Evans and family all of Waverly, and Homer L. Ranson and family and Mrs. Kate Luttrell of this city.

Matrimonial

Roth-Johnson.
The marriage of Miss Clara Johnson of Jacksonville and Frank Roth of Madison county, was solemnized Thursday morning at Illinois Woman's college. The ceremony was performed by Dr. Joseph E. Harker. Only a limited number of friends were in the company of witnesses. Mrs. Roth some years ago was a student at the Woman's college and Dr. Harker has been a friend of the family since that time.

Mr. and Mrs. Roth left on the morning train for St. Louis and will soon begin housekeeping at Mitchell, Ill. Roth is a substantial young business man and has the good will of all who know him. His bride has many friends here in Jacksonville to extend congratulations at this time.

Wolke-Duckwall
The marriage of William Wolke of this city and Miss Ozella Duckwall of Lynnville was solemnized at Springfield Saturday afternoon, Feb. 21. The ceremony was performed by Rev. T. N. Ewing, pastor of the First M. E. church, at the parsonage on South Fifth street, and was witnessed by Mrs. Ewing and son.

The bride who is a daughter of Mr. and Mrs. J. S. Duckwall, has made her home in Lynnville practically all her life. She is a young woman of much personal charm and numbers her friends by the score.

The groom is the son of Mr. and Mrs. John Wolke of this city. He is a carpenter by occupation and has been a resident of Jacksonville almost all his life.

Following the ceremony the young people spent a few days at the home of the bride's parents in Lynnville, and there on Tuesday night they were given two charming parties by the young people of the neighborhood. Mr. and Mrs. Wolke are now in Jacksonville and will reside at 902 Edgmon street.

CHAMBER OF COMMERCE CONSIDERS PROPOSALS

Industries Employing Men The Kind Needed Here—Industrial Agent Visitor in City

Directors of the Chamber of Commerce held a meeting last night to discuss a factory project which has been brought to the attention of the organization. Altho the meetings are not always recorded, it frequently happens that the Chamber of Commerce directors consider proposals that come from manufacturing plants or other industries seeking new locations.

Several weeks ago a representative of a well known shoe factory was here and definite proposition for the establishment of a private plant was entertained. Henry Frisch, president of the Chamber of Commerce, called the directors together and several different conferences were held. A moderate sized building that time available was offered to the company but after going into the proposition further it was not deemed advisable to make any further effort to locate the factory here. A majority of the employees would be young women and it cannot truthfully be said that there is a surplus supply of such workers here in Jacksonville.

Now another industry proposal has come to the attention of the directors and it will be investigated speedily. The Chamber of Commerce officers and directors feel that the kind of industry that Jacksonville needs is those that employ men and will so attract new families to become residents here. A. G. Meyers of St. Louis, an industrial broker, who has secured factories for a number of southern Illinois cities brought the project under consideration to the attention of the local men.

Deaths

Braner

Mrs. George W. Braner died at the family home eleven miles northwest of the city at 6:30 o'clock Wednesday evening. She had been in ill health for several months.

Deceased was the daughter of Wiley and Sarah Henderson and was born in the north part of the county June 29, 1856. March 21, 1876 she was united in marriage to George W. Braner. They have always resided in the county.

She is survived by her husband and the following brothers and sisters: George W. Henderson, Casper, Wyoming; Frank H. Henderson, Douglas, Wyoming; Jennie Tate, Peoria; Mrs. Belle Ray, Los Angeles, Calif.; Mrs. Ila M. Bishop, Billings, Mont.

Mrs. Braner was a member of the Primitive Baptist church and was always faithful in her worship. She was a woman who made many friends and news of her death will be received with regret in the community in which she spent so many years.

Funeral services will be conducted from Arcadia church Friday afternoon at 2 o'clock with burial in the church cemetery.

Funerals

Correa.

Funeral services for Robert Correa were held from the undertaking parlors of W. W. Gilham at 2:30 o'clock Thursday afternoon in charge of the Rev. Walter E. Spooner. Burial was in Jacksonville cemetery the bearers being Joshua Vasconcellos, Walter Wild, Wesley Sperry, J. W. Baptist, Simeon Fernandes and A. P. Vasconcellos.

Gillon.

Funeral services for Miss Madge Gillon were held from the Baptist church in Franklin Thursday afternoon at 2 o'clock in charge of the Rev. Mr. Curry. Music was furnished by Miss Allene Austin and Miss Blanche Harney with Miss Ruth McLamar at the piano. The flowers were in charge of Miss Patricia Olinger and Miss Uria Ralston. Burial was in Franklin cemetery the bearers being Clarence Whitlock, William C. Hart, Ora Ralston, Charles McLamar, Samuel Ash and James Wright.

FORMER RESIDENT HERE MARRIED IN SOUTH

Miss Martha Coale is Bride of New Orleans Man

Many Jacksonville people will be interested in knowing of the recent marriage of Miss Martha Estelle Coale to James E. Alpha of New Orleans. Mrs. Alpha until about a year ago was the anti-tuberculosis nurse here in Jacksonville. She resigned her position here to take one with more responsibility in the south.

The wedding announcement came as a surprise to most of Mrs. Alpha's friends here, as but few of them knew of her engagement.

NO INCREASE NOW

The state public utilities commission yesterday issued from Springfield an order suspending until June 29 the increased street car fare proposed by the Jacksonville Railway & Light Co. This action was taken without a public hearing on the question. The order also affects in a similar way proposed increase in fares of the Cairo Electric & Traction Co. and the Northern Illinois Light & Traction Co. operating at Ottawa.

NOTES EXCHANGED BETWEEN WILSON AND PREMIERS

(Continued from Page 1)

State and France now before the European settlement to be independently established and enforced by the associated governments.

Millerand, the new French premier and Lloyd George replying on February 17, said there was "no foundation for the assumption that the new settlement involves a capitulation to the Italian point of view as opposed to Jugo-Slavs."

Four Points In Reply
They summed President Wilson's criticism under four points: That it ceded to Italy the corridor; that corridor with Fiume as a free city prepared for annexation to Italy; that the modification of the Jugo-Slav-Italian frontier was detrimental to Jugo-Slav and that it provided for partition of Albania.

The premiers said President Wilson "had ignored the great advantage conferred on Jugo-Slavia." They had found, they said, that "nobody desired consummation of the free state of Fiume" and that "the upshot" of the agreement was to give Jugo-Slavia 15,000 more Jugo-Slavs than the original proposal. They argued that the guarantees of the league of nations were sufficient to guard against the annexation President Wilson feared and in reply to his criticism of Italian domination of the railway they held it a "commercial and not a strategic railway."

Details of the administration of Albania, they said, were yet to be elaborated. They found "difficulty in understanding the attitude of the United States" and hoped their explanations would lead to reconsideration. They disclaimed any desire "to force a settlement unacceptable to the president" and added they would not attempt to insist on its acceptance until hearing his views.

The premiers declared the proposal of December 9 has fallen because nobody now wants to set up the artificial free state of Fiume," and added that the United States with "no representative" cannot be in close touch with changes of opinion and circumstances since its plenipotentiaries returned to America.

They had no choice but to rely on the treaty of London, which they said they never had concluded and which they felt bound to apply, failing to secure another agreement unless it were to be regarded as a "scrap of paper."

France and Great Britain therefore view with consternation the threat of the United States to withdraw because it does not agree with the terms of the Adriatic settlement. It was argued could not be the only ones considered as they said, 3,000,000 Germans had been taken into Czechoslovakia and the American delegation had supported including 3,500,000 Rumanians in Poland. The reply added the hope that "whatever the final view of the United States may be, they will not use the whole machinery for dealing with international disputes."

Because their view is not adopted in this case, France and Great Britain cannot believe it is the purpose of the American people to take a step so far reaching and terrible in its effects on a ground which has the appearance of being so inadequate.

Admits Earlier Position
President Wilson's note of Feb. 24 says the president "feels that he has no choice but to maintain the position he has taken all along."

By writing into the peace treaty article ten of the league covenant he said, his position was that the powers had "foregone all territorial aggression and all interference with free political self-determination of the peoples. The president says that while Italy has accepted the substitute project for the free state of Fiume the Jugo-Slavs have not. In his view, the project to connect Fiume to Italy by a corridor is impracticable. The note says that while "the three-fold division of Albania might be acceptable to the Jugo-Slav government," he is "just as opposed to injuring the Albanian people for the benefit of Jugo-Slavia" as he is "to injuring the Jugo-Slav people for the benefit of Italy."

T. M. Tomlinson

The 100% Pure Wool Store

Agreements regulating the Italian northern frontier, the president argues already depart from the treaty of London line.

"It has been no secret," he says "that the parties to the treaty did not themselves now desire it and that they have thus far refrained from putting its provisions into effect. For nearly eight months discussion of the Adriatic problem has proceeded on the assumption that a better basis for an understanding could be found than those provided by the treaty of London."

Italy has accepted, he said, specific settlements which would be upset if the treaty were applied now.

Bringing in the treaty of London as an obligatory alternative, the note said, "came as a surprise" because the American government regarded the agreement of December 9 as superseding it.

In replying to the British and French reference to inclusion of Germans in Czechoslovakia and Poles in Poland, the president says:

"This is a line of reasoning which Italian representatives have advanced during the negotiations but which the British and French have hitherto found themselves unable to accept. There were cases where for geographical and economic reasons defects of the ethnographical frontier were sanctioned and the American government believes Italy would consent to apply the same principles in Istria and Dalmatia the Adriatic question would not exist."

Italy's Sacrifices.
Referring to Italy's sacrifices advanced as reason for her claims, the president says:

"Such considerations cannot be made the reason for unjust settlements which will be provocative of future wars. A course thus determined would be short-sighted and not in accord with the terrible sacrifices of which can be justified and enabled only by leading to settlements in keeping with principles for which the war was fought."

The president asks that the prime ministers of France, Great Britain and Italy read his determination in the light of these principles and settlements and realize the standing upon such a foundation of principle he must of necessity maintain the position which he arrived at after months of consideration. He counts upon their cooperation in this effort to maintain for the allied and associated powers that direction of affairs initiated over the victory of Germany and the peace conference.

NEW HEALTH RULES NOW EFFECTIVE

Dr. A. M. King, City Health Physician, Has Received From the State Health Department a Synopsis of the Rules of the Department in Force March 1st.

Acute Anterior Poliomyelitis.
Quarantine the patient for 21 days from date of onset, and until all abnormal discharges have ceased. Adults and other children remaining on quarantined premises must be quarantined until termination of quarantine. If contacts are removed from premises or, if patient goes to hospital or dies the contacts must be quarantined for 14 days from date of removal or death of patient. Patient must be excluded from school for at least three weeks from date of onset of disease; all non-immunes for 14 days from termination of quarantine or removal from quarantined premises; immunes for one week from termination of quarantine.

Chicken Pox.
Quarantine case until all primary scabs have disappeared, lesions are healed and skin is smooth and at least 12 days from date of onset of disease; non-immunes or susceptibles for 21 days from date of exposure; immunes need not be quarantined. Patients must be excluded from school for a minimum period of two weeks. Other children of the household who have not had chicken pox must be excluded from school for

20 days from date of last exposure.

Diphtheria.
Quarantine case until two negative nose and throat cultures, taken 24 hours apart contain no diphtheria bacilli, such cultures not to be taken until 12 days from date of onset of the disease. Members of the quarantined household who continue to reside on infected premises must be quarantined until termination of last case, such quarantine not to be terminated until all contacts show one negative culture from nose and throat. If patient dies or is removed to hospital all contacts may be released from quarantine after negative culture from nose and throat. Persons residing on quarantined premises may be removed therefrom to remain away during quarantine period upon permission of local health authority, after negative period upon permission of local health authority, after negative culture from nose and throat and after disinfection of person and clothing. Children of quarantined household must be excluded from school until after termination of quarantine.

Epidemic Cerebrospinal Meningitis.
Quarantine case until two weeks after temperatures have become normal, or until three successive cultures from nasopharynx, at intervals of five days are negative. Other members of household may be released after negative culture of nasopharynx, provided they remain away until quarantine is raised; otherwise they must remain on premises until termination of quarantine. If case is removed to hospital other members of household may be released from quarantine after negative culture has been obtained from nasopharynx at time of removal of patient. Children of quarantined household must be excluded from school for the week after quarantine has been terminated or they have been removed from the premises, or, if patient goes to hospital, one week from date of such removal.

German Measles.
Quarantine case and placard premises for eight days from date of onset of disease, all non-immunes of the household for 21 days from date of last exposure. Immunes need not be quarantined. Patient must be excluded from school for eight days from onset of disease. Other children of the quarantined household who have had the disease may attend school provided they do not come in contact with the patient. All non-immunes must be excluded from school for 21 days from last exposure.

Influenza.
Quarantine case and placard premises, properly isolating the

patient from the rest of the household. If there is any contact between the patient and other members of household all persons living on quarantine premises must be quarantined until termination of case. Patient must be excluded from school until recovery and until five days after temperature has become normal. Other children of household must be excluded from school until termination of quarantine.

Measles.
Quarantine patient until five days after the appearance of the rash and thereafter until the cough, catarrhal symptoms and abnormal mucous membrane secretions have ceased, and the temperature has been normal 48 hours; non-immunes 14 days from date of last exposure. Immunes need not be quarantined provided they do not come in contact with the patient. Patient must be excluded from school until the termination of quarantine. Other children of the family who have had measles may attend school provided there is no contact between them and the patient. All non-immunes must be excluded from school for at least 14 days from date of last exposure.

Mumps.
Quarantine case and placard premises for minimum period of two weeks from onset of the disease and one week after disappearance of the glandular swelling. Quarantine non-immunes for 21 days from date of last exposure; immunes for 14 days from date of last exposure. Patients must be excluded from school until after termination of quarantine. If patient goes to hospital, other members of household may be released from quarantine after negative culture from nasopharynx, at intervals of five days are negative. Other members of household may be released after negative culture of nasopharynx, provided they remain away until quarantine is raised; otherwise they must remain on premises until termination of quarantine. If case is removed to hospital other members of household may be released from quarantine after negative culture has been obtained from nasopharynx at time of removal of patient. Children of quarantined household must be excluded from school for the week after quarantine has been terminated or they have been removed from the premises, or, if patient goes to hospital, one week from date of such removal.

Pneumonia.
Placard premises and isolate patient from other members of household until recovery. If patient is properly isolated other members of household may go about their usual business and children may attend school. Patient must be excluded from school until recovery and until all nose and throat discharges are free from infectious organisms.

Scarlet Fever.
Quarantine premises for minimum period of four weeks from date of onset of disease and until all discharges from suppurating glands and ears have ceased and until throat is normal. Other members of household who continue to reside on quarantined premises must remain on premises until termination of quarantine. If patient goes to hospital, other members of household may be released from quarantine after negative culture from nasopharynx, at intervals of five days are negative. Other members of household may be released after negative culture of nasopharynx, provided they remain away until quarantine is raised; otherwise they must remain on premises until termination of quarantine. If case is removed to hospital other members of household may be released from quarantine after negative culture has been obtained from nasopharynx at time of removal of patient. Children of quarantined household must be excluded from school for the week after quarantine has been terminated or they have been removed from the premises, or, if patient goes to hospital, one week from date of such removal.

Smallpox.
Quarantine case for minimum period of 14 days and until skin is entirely smooth and all seeds have disappeared from palms of hands and soles of feet. Members of quarantined household who continue to reside on the premises must be quarantined until termination of quarantine. Other members of household may be released from quarantine after negative culture from nasopharynx, at intervals of five days are negative. Other members of household may be released after negative culture of nasopharynx, provided they remain away until quarantine is raised; otherwise they must remain on premises until termination of quarantine. If case is removed to hospital other members of household may be released from quarantine after negative culture has been obtained from nasopharynx at time of removal of patient. Children of quarantined household must be excluded from school for the week after quarantine has been terminated or they have been removed from the premises, or, if patient goes to hospital, one week from date of such removal.

Typhoid and Paratyphoid Fever.
Premises must be placarded and patient isolated from other members of household until two negatives are obtained from fecal specimens of patient, submitted one week apart to our laboratory at Springfield or other laboratories approved by State Department of Health. Members of household other than the attendant on the case may go about their usual business, provided they do not come in contact with the patient and provided they are not engaged in handling milk or milk products, water or other beverages. Patient must be excluded from school until recovery. Other members of household may attend school provided they do not come in contact with patient. All contacts should be immunized with a triple vaccine.

Whooping Cough.
Quarantine case for eight weeks from onset of disease or until one

week after characteristic whoop has disappeared; non-immunes in household for 14 days from date of last exposure, and quarantine must be extended if cough develops. Immunes need not be quarantined provided they do not come in contact with case. Patient must be excluded from school eight weeks from onset of disease or until one week after characteristic whoop has disappeared. Other children of the household who have not had the disease must be excluded from school for two weeks from date of last exposure. Immunes need not be excluded, provided they do not come in contact with the patient.

TWO LOCAL MEN HELD IN ALLEGED ASSAULT

Monroe Abell and Edward McCollister Arrested Wednesday—Taylor Reed Swears Out Warrants.

Monroe Abell and Edward McCollister are being held at the police station on the charge of assaulting Taylor Reed about nine o'clock Wednesday night.

Reed was assaulted while on his way home and one of the men struck him with some blunt instrument making a bad cut on the head. The blow did not knock Reed down and he swung on one of his assailants and they both ran.

Following the assault Reed made his way to the police station where he was taken to the hospital. He is now recovering from his wounds. He reported that matter and told the police he could identify his assailants.

Thursday he swore out warrants for Abell and McCollister. Abell was arrested about 2:30 o'clock Thursday afternoon by Chief Kiloran. He was locked in the station and Reed later identified him as one of his assailants. McCollister was arrested Thursday afternoon by Officer Baker. He is held at the station, but Reed has not yet seen him.

**MISS HAZEL STRAWN
TO VISIT IN EAST**
Miss Hazel Strawn, daughter of Mr. and Mrs. James Strawn of South East street, has gone to make a visit of some weeks at the home of her cousin, Mrs. Mary Blackburn, in Washington, D. C. Miss Strawn will also be a visitor with friends in Cincinnati, Indianapolis and a number of Illinois cities before returning to the city.

Anton Graef, who was confined to the hospital for a number of weeks and subsequently to his home on West College avenue, as a result of illness, was able to be in the business district yesterday. Mr. Graef is now very much stronger than he has not yet gained his normal health and strength.

CARD OF THANKS.
We wish to express our sincere thanks to neighbors and friends for the many kindnesses shown during the illness and after the death of our wife and mother. We are also grateful for the beautiful flowers sent us.

James Meyers and Family.

Mr. and Mrs. A. C. Temple, Mr. and Mrs. Leo Doolin, Miss Grace Ator and Frank Massey, motored to Winchester Wednesday night to attend a dance at the W. E. Knapp home. They report an excellent time.

ANTONIO REFRATES DIED WEDNESDAY

Long Time Resident Passed Away at Local Hospital—Funeral Will Be Held Today.

Antonio DeFrates a long time resident of this city died at Passavant hospital at 10:45 o'clock Thursday morning. Death resulted from an attack of pneumonia after an illness of two weeks.

Mr. DeFrates was born in the Island of Madeira October 8, 1838 and was the son of Manuel and Mary DeFrates. He came to Jacksonville when 28 years of age and has always resided here.

In 1866 he was united in marriage to Frances DeFrates who preceded him in death seven years ago. Three sons survive, Frank, Henry and Clifford DeFrates. He also leaves three brothers and one sister, Joseph DeFrates this city, James DeFrates, Moline, John DeFrates, Mrs. Mary Souza, Los Angeles, Calif.

Mr. DeFrates followed the occupation of farming for many years, being compelled to retire from active work some years ago. Recently he has been making his home with his son Clifford being brought to the hospital for treatment because of illness in the family. He was a member of Northminster church and highly regarded by a wide circle of friends. The remains were taken to the undertaking parlors of Williamson and Cady and prepared for burial.

Funeral services will be held from Northminster church Saturday afternoon at 2 o'clock in charge of Dr. Walter E. Spoons. Interment will be in Ebenezer cemetery.

RANKIN LAMENTS FAILURE OF SPRINGFIELD TO MARK HISTORIC LINCOLN SPOTS

That Springfield does not appreciate its greatest man, the man who made the city known throughout the world, is the lament of Henry B. Rankin, 519 South Second street, on the 111th birthday of that man—Abraham Lincoln. Evidence of this, he points out, is the failure of citizens of Springfield to make any response to appeals to mark the historic places in Springfield

MAN HAS MIRACULOUS ESCAPE

"I was told by our family physician that I could not live without an operation, as my liver and gall sack were in such a condition. I set the day to go to the hospital, but then I saw the advertisement of Mayr's Wonderful Remedy. Since taking it I am feeling like a two-year-old. I am sure I never could have survived an operation." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Adv.

There is No Excuse Today For Women to Have Ugly, Painful Corns.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, just without hurting a particle. It is almost magical.—Adv.

with relation to her greatest citizen and world-hero.

Appealed Issued Before.

Mr. Rankin's appeal is a reiteration of an appeal he has made in the past. On the fiftieth anniversary of Lincoln's death, April 15, 1915, he issued an appeal at that time made in an article published in the State Register, he said:

"Future generations will not condone any neglect or omission on our part to preserve as historic monuments in this city whatever was here connected with the life of Abraham Lincoln. The memory of his resplendent personality and national service should become part of our state's and of this city's proud heritage for all time. Through this man's citizenship—if we prize his services and are faithful to his memory—our state's capital will become with Mecca, the Delphian Vales, and Palestine, one more of the world's venerated shrines.

"As belong the exclusive privilege and high duty to preserve not only those sacred surroundings of his tomb but also, while it is at all possible, to mark with appropriate tablets and inscriptions all places in this city which are associated with notable events of Abraham Lincoln's public life. Such monuments will convey to future citizens a vivid sense of the reality of Lincoln's life in Springfield. They would fulfill the expectations of visitors who in coming years will visit the city of him whose life stands so pre-eminently for fidelity, for law, for liberty. There can, and there should be a living embodiment of Lincoln's spirit in this city more appealing than his tomb. He still lives.

Contemporaries Passing.

"Places reminding of his every day life in this city are one by one passing beyond recognition. The few who can now fix their locations with precision are soon to pass into the silence that removes the possibility for identification. We are entering the period when questioning thousands will visit our city, seeking all that is here made sacred by association with eventful incidents in the life of Abraham Lincoln. I appeal to you to locate with appropriate tablets, now while it may be done, all historic localities of his presence and life among us."

In this article, and repeated now, Mr. Rankin specifies a number of the spots he would have marked. They include, briefly, the following: The location of the several offices Lincoln occupied; where the old court house stood, in the northeast corner of the square, where he practiced law in the circuit court; the place in the old state capital, now the court house, where he delivered his speech on "A house divided against itself;" the place in the old state capital where he first read, to a few friends, the complete text of this address; the room he occupied in the old state house after his election as president until he left for Washington; the position of the room in the third story of the C. M. Smith store building on the south side of the square, where he wrote his first inaugural address.

He also suggested marking the graves of John T. Stuart and Stephen T. Logan with the dates of their respective law partnerships with Lincoln; marking the graves of James C. Conkling with extracts from Lincoln's letter to him regarding a meeting of Unconditional Union men in this city, and the addition of further

ROODHOUSE TERMINAL
AN IMPORTANT ONE

P. and N. Line of C. and A. Railroad now included in Roodhouse Territory—Mrs. H. Gahuly Entertains Friends—Other News Items

White Hall, February 25.—The new arrangement of placing the P. & N. line of the C. & A. in charge of the Roodhouse terminal on March 1st will not result in the employment of a third set of train dispatchers at Roodhouse. One set of dispatchers will handle the Jacksonville line, P. & N. the Air line and the Carrollton line.

The reversion to one dispatcher handling trains between Booth and Godfrey is a return to the arrangement in vogue in the earliest history of the Roodhouse terminal, with which was connected such familiar names as E. S. Needles, J. A. Jordan, Frank L. Smith, S. D. Reeve, W. K. Morley and J. W. Hopkins, back in the eighties and early nineties.

L. L. BURTON

223 West Morgan St.

Then it was when the C. & A. ran its Kansas City limited trains out of St. Louis via Roodhouse, and the dispatcher at Roodhouse got the trains at Venice and handled them to Booth. Booth was later abandoned as a sub-terminal, and the entire dispatching force was taken to Bloomington and Kansas City. About seven years ago Booth was again made a terminal, the dispatchers' office at Roodhouse being restored about this time or a few years earlier.

A couple of years ago another effort was made to abandon Roodhouse as a dispatching point, but it failed after an experiment of less than two weeks. The inclusion of the P. & N. line to the Roodhouse territory indicates the increasing importance of this terminal. The terminal will likely be given an official with the title of assistant superintendent, the highest official there now being the chief dispatcher and a trainmaster. A new time card will go into effect on March 28th that will restore the former train service between Jacksonville and St. Louis.

Mrs. Hal W. Gahuly entertained sixteen ladies at her home on Carr street Tuesday afternoon in honor of Mrs. E. Clyde Boehm and Mrs. P. E. Baker, both of whom are soon to leave White Hall for their new homes in Peoria and Kansas City respectively.

During the past two years dentistry has been given recognition by the medical and surgical professions that has placed the former in a more important position than it ever held in its history, and the X-ray has become a most important part of dental equipment. A large percentage of disease and afflictions are traceable to the insanitary condition of the mouth growing out of bad teeth, and there have been recorded locally a number of important cases of recovery from serious illness as a result of mouth and tooth treatment. An X-ray outfit has just been installed by Dr. E. J. Hume in response to the increasing demand for such equipment.

The fire company was called to the home of Miss Flora Clark on Carrollton street Monday, a fire having ignited the roof. The fire chief estimated the damage at only ten dollars. Here is the home of Mrs. Sarah A. Higbee, aged 97 years next month, and she was undisturbed by the proceedings. However, she was taken by Rev. Mr. Ewert to the rooms of her daughter, Mrs. Annette Cheney, on North Main street, for the remainder of the day without showing any ill effect whatever. The old lady says she is in better health now than for several years.

Mr. J. Herman left for the Eastern Markets last night to complete his purchases of ready to wear garments and millinery.

DOUBLE HEADER TO BE PLAYED TONIGHT

High School and Illinois College Will Clash With Visiting Teams Tonight — High Meets Bluffs While Illinois Meets McKendree

Basketball fans will have plenty of their favorite sport tonight when a double header will be played in David Prince gymnasium. The first clash will be between Jacksonville high and Bluffs high and will start promptly at 7:30 o'clock. Immediately following will be a game between Illinois College and McKendree.

Bluffs is coming here with the determination of winning the game. The Scott county aggregation is one of the strongest that ever represented the school. They have only one defeat against them, that by Pittsfield which came after one of their strongest players had been put out of the game by an injury.

However, Coach Hufford's men will have something to say about the winners of the game. For the first time in several weeks Coach Hufford will have what looks like a team. Capt. Lucas and Woods, the two regular forwards, are expected to start the game.

Lucas showed in the Pittsfield game that he is right again and Woods also should be able to play nearly all of the game. It is not known whether or not Hunter will be able to play. However, Green will be in the game and he works well with Lucas and Woods and should make it interesting for the Scott county visitors.

Illinois vs. McKendree Since winning such a decisive victory from Carthage last week Coach Harmon's squad has taken on new life. The practice games this week have been full of "pep" and the combination that has been used the last two weeks looks to be the best Harmon has so far figured out.

Despite the fact that McKendree won two games from Illinois at Lebanon, the Blue and White men believe they can reverse the decision here. The floor at Lebanon was long and narrow and handicapped the Illinois men.

In addition to that fact, it is also conceded that Illinois was not then playing in the form that she is now showing. The class that Illinois displayed against Carthage will beat almost any team in the Little Nineteen conference, not excepting even Millikin.

Coach Harmon will officiate in the clash between Jacksonville and Bluffs. Coach Hufford will represent by working in the Illinois-McKendree clash.

The probable line-up of Illinois to start the battle was announced by Harmon last night as follows: Andrew, Antrobus, forwards; Tomlinson, center; Davis, Mutch, guards.

ALTON TO HURRY LOCAL SWITCH PLANS

Engineers Here Thursday to Look Over Ground and Make Survey

A party of four Chicago & Alton engineers came to Jacksonville yesterday from the Bloomington offices to make a preliminary survey for the proposed switch back to the pumping station. The men in the party were Assistant Engineer J. J. Gaultz, G. M. Calahan, R. D. Tomeny and A. S. Paul.

Their report will be made promptly and it is expected that the switch will be authorized at an early date and the work of construction begun.

The city is anxious to use this switch not only for transportation of coal but also for materials used in the construction of the power and filtration plant. A very considerable haulage cost can be saved in this way. While in Chicago Wednesday Mayor Crabtree had a very satisfactory interview with the chief engineer of the Chicago & Alton, and there is every indication that the railroad management is intending to use their best efforts to hurry along the construction work in response to the wishes of the city officials.

BROODS OVER TRAGEDY AND BECOMES INSANE

Thomas Williams of Mercedosa, Pa., of ill-fated steamer "Columbia" is Patient at Jacksonville State Hospital.

Thomas Williams of Mercedosa is now a patient at Jacksonville State Hospital, having been brought to the city Wednesday by his son, George Williams, and J. D. McLain, and Edward Cody, friends of the Williams family. The case is a peculiarly sad one, as Williams lost his mind from brooding over the sinking of the Illinois river steamer "Columbia," of which he was the pilot. The catastrophe resulted in the deaths of eighty-seven persons on July 5, 1918, near Peoria, and the happening will be remembered by many local people.

Pilot Williams had been ill for a number of weeks just prior to the accident and when taken from the wreck he was in an unconscious condition. The license of Williams was revoked, but it was stated by many familiar with the circumstances that this action was unjust. The inquest held the owners of the boat to blame for operating it when it had been condemned, but no legal action followed.

OBITUARY

Boulah Waters, daughter of Mr. and Mrs. Monroe Homer, was born in Morgan county on Nov. 19, 1885, and died Feb. 20, 1920.

On April 20, 1904 the deceased was united in marriage to Harry G. Waters of Chapin. To this union were born seven children, all of whom are surviving. The deceased leaves beside her husband and children, one brother, one sister and her mother. Her father died May 22, 1915. There are also a number of other relatives and a host of friends who are deeply grieved at Mrs. Waters' death.

The deceased was a faithful member of the M. E. church at McKendree Chapel, having united with that denomination when but fourteen years of age.

Funeral services were held from the family home Sunday morning at 11 o'clock, in charge of Rev. C. G. Cantrell. Burial was made in Concord cemetery.

ARTHUR J. KEARNEY DIES IN CALIFORNIA

Friends in the city have been advised of the death of Arthur J. Kearney which occurred at the home of his uncle in Los Angeles, Cal., Feb. 9. No facts as to the cause of death were given in the message.

The deceased was until last November employed as a fireman at the School for the Deaf. He was a member of the Knights Templar and Masonic orders and was a man who held the high esteem of all who knew him.

BULLETIN NO. 10

Public Health
Department**Blood Pressure**Public Health
Department

For Older Men and Women

BLOOD PRESSURE is an established procedure and recognized as a valuable diagnostic and prognostic aid. But it must be taken as a means and not as an end. Our space is far too limited to discuss any but general facts. What is Blood Pressure? It is the force or energy used by the heart to maintain circulatory equilibrium. This requires a normal heart—at least it must possess a strong left ventricular muscle, capable of strong but uniform contractions. The arterial system—including Aorta—must be elastic and free of solid deposits. The venous return system must be free of injury either to the valves or channels. The Vasco-motor sympathetic nervous system must be in good tone. Bear in mind—a diseased state of any of these conditions will influence the blood pressure. Take note of the general terms—systolic, diastolic, pulse and venous pressure. Taken as a whole they make what I call the "pressure-diagram," which must be complete or else the blood pressure information is as untrustworthy as taking a man's temperature and diagnosing his case as "fever" when that is only an effect and not a cause.

THE SYSTOLIC PRESSURE represents the full force of the heart's contraction and is of less diagnostic and prognostic value than any of the others.

THE DIASTOLIC PRESSURE represents the contractile force of the left ventricle before a drop of blood enters the circulation—it shows the exact peripheral resistance—therefore of great diagnostic value.

THE PULSE PRESSURE is the difference between the other two and shows the actual pressure forcing the blood along the arterial channels towards the periphery. In other words, it gives the actual driving (Kinetic) force which keeps the blood moving.

THE VENOUS PRESSURE indicates whether venous return is free or obstructed.

IN PART NOTE the significance of blood pressure on the elderly man or woman. The average pressure is as follows:—Systolic, 120-130mm., Diastolic, 80-90mm., Pulse 30-50mm., eac. A pressure much above these limits is "high"—it does not matter much what the figures are—the fact remains it's "high." Hypertension we term it, and this condition interests the public

THUS YOU SEE the different values of each and for the "pressure-diagram" to be of any value, the whole diagram must be taken.

KEEPING FIT should be the aim of every man and woman and no one should be old at 70. Have your "Blood Pressure Diagram" taken every six months or more often if your physician advises. NEWS LETTER FROM
GREENE COUNTY TOWN

W. S. Corsa Identified with Movement to Restore Horse to its Rightful Place—Average Conditions said to Prevail in Wheat Crop

White Hall, February 23.—The week ending today has been characterized by muggy weather, there being very little freezing temperature, with showers on Thursday and Friday that totaled 0.07 of an inch. The average minimum temperature for the week was 31.4 degrees and the average maximum 49.8. The ground is very soft at the close of the week, and unimproved highways are in bad condition. There is beginning to appear some skepticism as to the outcome of the wheat crop, but reports locally indicate that average conditions prevail for this time of the year, excepting the damage by fly to the early planted wheat.

Farmers are manifesting considerable interest in the power problem, and a survey of results in this section show a disposition to return to horses and mules by those who have given tractors a trial. Auctioneers say that with every public sale the prices of horses and mules are going up, which is further proof that horses and mules are

having a return popularity as farm power. There has been a great increase in the price for the higher grade of draft horses during the sale season.

A little more than a year ago the situation was set forth at length in these columns as the result of an interview with W. S. Corsa, proprietor of Gregory farm, who stated that the services of an expert statistician had been employed for some months in determining the relative merits of the horse and the tractor for farm power, with the result that the horse was found to be most economical and serviceable. Mr. Corsa spoke of the tremendous influence that was being wielded by the auto and tractor concerns through immense appropriations for advertising space, and that if the horse is to be brought back into its own on the favorable report that had been made for the horse by the technical expert, there must be a counter advertising campaign. About this time a movement to that end was inaugurated by a combination of the horse and allied interests that has just gotten well under way, and from now on there will be lectures, advertising space and all other effective and honorable means employed in restoring the horse to its rightful place in the minds of farmers as an economical and serviceable source of power. This is a great national movement, and Mrs. Corsa has been identified with the movement from its inception on account of his high appreciation of the value of publicity for the right kind of goods. The headquarters are in Chicago, but Mr. Corsa holds an important committee chairmanship, and he probably would be in position to answer or refer all inquiries and suggestions in regard to the conduct of this national campaign, or as to the character and extent of the advertising features. It is said that this movement is in the interest of the horse and the backing of a fund of one million dollars.

LITERBERRY MAY HAVE
NEW HIGH SCHOOL

Possibility of Building of New Community High School Removed—Miss Helen Young Recovering From Attack of Measles—Other News.

Literberry, Feb. 24.—There is a report that a community high school may be built here. This would certainly be a great benefit to the community and would be much appreciated by the people here.

Miss Helen Young is able to be up and around the house after a severe attack of the measles. Mrs. McFarland and Mrs. G. T. Litter were business visitors in Peoria one day last week.

Miss Lora Petefish is visiting her sister at Prentice. W. H. Young and son Carl of Ashland were business visitors here Thursday.

Austin Beavers and family and Mrs. Mary Beavers returned home Sunday after spending several weeks in the South.

Mrs. Howard Litter came home from Crackers Bend Saturday where she had been for several days, caring for her sister, Mrs. Ogilvie, who has pneumonia.

Ivan Bateman is sick with the measles. Edgar Ray, John and Roy Chapman of Jacksonville spent Sunday with Al Chapman and wife.

Delbert Guy returned to school at Virginia Monday after an absence of several weeks on account of the flu and mumps.

Miss Edith Yancy returned to her home in Ashland Thursday after a week's stay with her sister and family.

We are sorry to hear of the death of Mrs. Smith of Iowa. Mrs. Smith was the wife of Rev. Smith, a former pastor of the Baptist church and she has visited here a number of times. We extend our sincerest sympathy to the husband and sons.

Miss Evaline Hutten entered as her guest Sunday the Misses Bertha Roach, Mae Hixon, Eula Lindsey, Ruth Jumper and Mary Whalen, Russell Magee and Mr. and Mrs. Ralph Hudson of Virginia.

Mrs. Cox and Mrs. Watt of Jacksonville were guests of Mrs. W. E. Murray last week.

Mrs. Durrel Crum entertained at supper Monday evening Mr. and Mrs. C. L. Pierce and on Tuesday evening W. W. Young and family.

Mrs. Ada West of Springfield returned to her home Saturday after a few days visit with Mrs. Pierce.

E. G. Young and George Richardson are doing carpenter work for Mrs. G. T. Litter.

Friends here were surprised to hear of the marriage of Miss Frances Gillis of Jacksonville. She was a former resident of this place.

Miss Margaret Chapman spent Sunday with her sister at the home of B. A. Johnson.

INDIGESTION

Caused by

Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which are sure signs of Acid-Stomach—belching, heartburn, bloating after eating, food regurgitating, sour, gassy stomach. There are many diseases which, while they do not cause much distress in the stomach itself, are nevertheless traceable to an acid stomach. Among these are nervousness, blues, depression, irritability, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victim in miserable health year after year.

The right thing to do is to attack the ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this.

One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pains in my bowels disappeared. EATONIC is just the remedy I needed."

We have thousands of letters telling of these marvelous benefits. Try EATONIC and you, too, will be just as enthusiastic in its praise. Your druggist has EATONIC. Get a big box from him today. He will refund your money if you are not satisfied.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arceine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arceine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

Farm Bureau Membership.
March 1, 1918 the Morgan County Farm Bureau had a membership of 318. Today it has a membership of 1098. 1915 of these are also members of the I. A. A. New members are coming in daily. As fast as new members are enrolled, we place their names on our mailing list and send them our circular letters.

Membership Motto: Try it. I will not criticize or condemn the Farm Bureau, its officers and employees for failure to attain certain results, until I, myself have given both time and energy to help secure such results.

Meeting of Executive Committee.
The members of the executive committee are requested to meet at the Farm Bureau office at 10:30 a. m. Saturday, February 28. If they cannot be present, they are requested to send a duly authorized proxy or authorize appointment of one.

The following business will be considered:

I. Auditing and payment of

II. Discussion of the following proposed amendments to the constitution of the county organization:

1. Providing for a change in name of the county organization.

2. Providing for the election of the executive committee at a county wide meeting instead of by the advisory council as at present.

3. Provision for the appointment of proxies at the meeting of the executive committee, so that we shall always have nine present.

4. Provision for the appointment by the executive committee of members of the advisory council by communities instead of by townships with no limit as to the number of communities that may be thus represented.

III. Discussion of the present method of requiring the county agent to maintain the automobile at his own expense.

IV. Provision for an incidental checking system to take care of current expenses.

V. Discussion of the matter of having our books audited by a recognized auditor.

VI. Provision for bonding officers and employees who handle funds.

VII. Provision for new quarters. Additional office equipment.

HAZEL REID OF SPRINGFIELD MARRIES

Miss Hazel Maru Reid, daughter of Frank Reid, of Springfield, was married February 24th, in St. Louis, to Philip Martin Harman. They will live in Springfield. Miss Reid, has been a frequent visitor in Jacksonville, and is well known here.

Mr. and Mrs. H. W. Clendenin and daughter, Marie of Springfield are visiting at the home of Mr. and Mrs. Thomas Harbor on Webster avenue.

INCOME FACTS YOU SHOULD KNOW

Before claiming a deduction in the preparation of an Income Tax return "all the ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business," it must be determined just what constitutes a trade or business.

"Trade or business" has been held to include professions and vocations. The trade or business of an individual is the pursuit of an occupation to which he devotes wholly or in part his time and attention for the purpose of livelihood or profit. A single transaction or a series of isolated transactions is not regarded as a business.

A person may carry on more than one business or trade if he devotes sufficient time and attention to each enterprise, and may claim as deductions the business expenses of each. Mere investment of capital for profit, however, is not sufficient to allow such claim. For example, a merchant investing in oil stocks who desires to visit the scene of operations may not include the cost of the journey as a business expense.

Allowable Items.

From his gross sales, a manufacturer or merchant should deduct the cost of goods sold during the year, the cost of being his gross income for the year. In this computation he should take into consideration the inventories of goods on hand at the beginning and end of the taxable year.

From his gross income he is allowed to deduct as business expenses such items as salaries and wages, rent paid for use of business property in which taxpayer has no equity, interest on business indebtedness to others, taxes on business and business property; minor repairs, a reasonable allowance for wear and tear of property used in business and losses of business property by fire, storm, or other casualty, or by theft, when not compensated for by insurance or otherwise. Bad accounts—actually charged off because they were ascertained during the year to be worthless may also be claimed as a deduction.

The smaller incidental expenses, such as advertising, freight, express, postage, stationery, telephone, etc., are also deductible items.

However, deductions for business expenses may not include investments of a permanent nature such as expenditures for the erection of new buildings, installation of machinery, and the purchase of tools or implements of permanent value, since they constitute merely a change in form of capital, and not a reduction of wealth.

Salary Payments.

The law provides for the deduction of a "reasonable allowance" for salaries or other compensation for personal services actually rendered. Such payments are subject to careful scrutiny by the Bureau of Internal Revenue, and to be allowed, must conform strictly with the wording of the statute. A payment is not a salary if in fact it is paid for some consideration other than personal service. For example, should stockholders of a corporation draw salaries in amounts which bear close relationship to their stock holdings and if such payments are found to be in excess of a "reasonable allowance" for services rendered, the excess will be regarded as a dividend under the guise of salary.

Reasonable compensation is held by the bureau to mean only such amount as would ordinarily be paid for like services by like enterprises in like circumstances, as, for instance, a bargain between strangers.

ABOUT REV. GEORGE C. WOOD

I was much interested in Mr. Moore's article relative to Rev. George C. Wood. Mr. Wood and my father were students at the same time in Williams' College, and always retained a warm friendship for each other and when my mother, sister and self removed to this place we naturally hunted up the Wood family very soon and found their friendship most delightful.

Mr. Govert and I were students in Illinois College at the same time and have ever been the warmest of friends. The gentleman has two daughters both married and living in Quincy.

S. W. NICHOLS.

Harry German formerly of this City and a graduate of the High School here is now at Mont Calm, Mich., where he is employed as assistant manager of a large steel plant of that place. His many friends are delighted to hear of his success.

Power and Light With the Quiet Knight

'Willys Light'

Demonstration

Now Going On
See Our Window

Come in and see this wonderful machine doing actual work claimed for it.

A Complete Electric Light and Power Plant

There isn't a home worthy the name, the world over, that wouldn't appreciate the benefits, comforts and economies of electricity. A few years ago only those who lived in cities could enjoy its numberless advantages. Then came the first crude little plants for individual use—not expensive, but far from efficient and reliable. Steadily improved and perfected, they now represent the most useful and indispensable invention of the last decade.

Wilys Light has achieved the highest development, the most advanced ideas in an electric light and power plant for the farm and home. Its cost is less than half that of the medium priced motor car. Its efficiency and dependability will satisfy the most exacting. It saves vastly more in time and labor than it costs to operate it.

City Comforts for Country Homes

The Name "Wilys" an Ample Guarantee

Wilys Light is a product of the Electric Auto-Lite Corporation, one of the allied industries of the great Wilys organization—manufacturers of automobiles, trucks, tractors, aeroplanes, engines, batteries and kindred products. Wilys-Overland cars, Knight engines and Auto-Lite starting and lighting systems are world-famous. Wilys Light will have as great a demand.

The Wilys-Knight Sleeve-Valve Engine

The Wilys-Knight Sleeve-Valve Engine operates Wilys Light. It is air-cooled, self-cranking, stops automatically, and uses kerosene for fuel. It is the only internal combustion engine that improves with use, and is also the quietest, simplest and most economical in operation. The Knight engine is known the world over for endurance, power and reliability.

Comfort, Convenience, Safety and Economy

A Steady, Brilliant LIGHT—Instantly Available Day or Night. Eliminates the Heat, Smoke and Daily Cleaning of the Dangerous, Ill Smelling Kerosene Lamp and Lantern. POWER for Pumping Water; for the Washing Machine, Cream Separator, Churn, Vacuum Cleaner, Electric Fan, Grindstone, Feed Cutter—or any light powered motor. CURRENT for Electric Iron, Toasters, Electric Heaters, Coffee Percolators, Curling Irons, and a long list of other valuable time, labor and money saving devices.

Dependable, Inexpensive Electric Light and Power

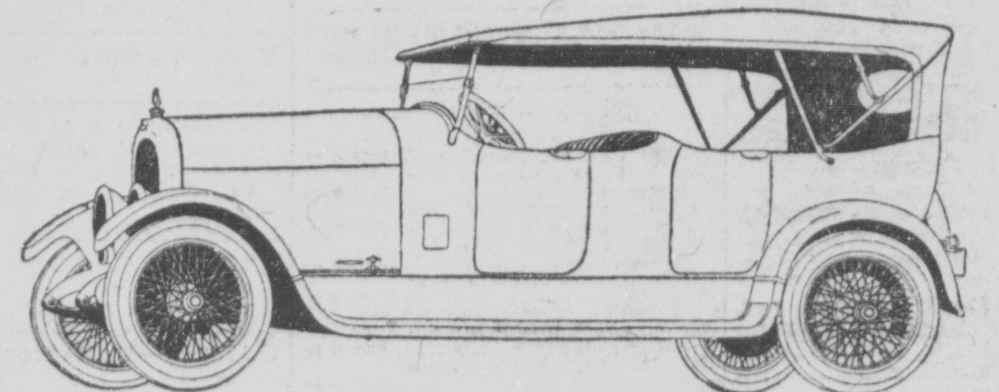

For the Farm and Country Home; Small Towns and Villages; Country Stores, Schools, Churches, Theatres, Hotels, Garages; Summer Resorts and Cottages; Fishing and Hunting Camps; Private Yachts and Steamboats; Laboratories and X-Ray Equipment; Business Houses and Public Buildings. All the benefits, comforts and economies of electric light and power for every community where city current is not available. Dependable, Inexpensive, requires no attention.

"Marmon 34"

From 10 to 50 Miles Per Hour
In 16 Seconds

THE Marmon does not have to rely on fancy-worded claims for its appeal. It can point to actualities in performance. In recent tests for acceleration the new series Marmon accelerated from 10 to 50 miles per hour in high gear in 15.8 seconds. These tests were made with a standard seven passenger Marmon, the car being fully equipped for the road, with top and windshield up, with spare wheel and tire, and with tire, gas, oil and water compartments filled—gear ratio 4 to 1. The car carried a driver and an official observer from the Class Journal Company, publishers of automobile trade papers.

Let us tell you of other interesting performance tests that were made. Or, better still, let us show you the abilities of the new series Marmon in an actual demonstration.

An Extra Day of Good, Home Baking

Leap Year and three more delicious, wholesome meals crowned with home baking.

How good it tastes—crisp, brown-crust and hot from the oven! Its very flavor suggests health and vigor.

The kiddies love it, grown-ups appreciate it and economy dictates it.

Valier's Enterprise Flour

is particularly suited for the finest of fine home baking. It is milled from the highest grade hard winter wheat grown, is remarkably fine in texture, and has a rich gluten content which gives it rising power far above the average.

The slightly greater cost per sack, made necessary by its vastly superior quality, is not an expense, but insurance. It protects you against failures and secures a flour which gives you
